Nr. 17 - April 2019

## Dear Trintella Friend,

Your editors are busy with preparing their ships for the new season. The lovely weather of the past few days has now been replaced by a storm, which makes for a great opportunity to ready this Newsletter.

In it, you'll find the invitation for the Spring Meeting. The organisers are Ines and Yvo Bakkum, and they will surprise us with some new elements alongside the familiar ones. We hope you'll find time, somewhere in between working on your ships and all your other activities, to sign up as soon as possible. Whether you join with your ship or without, everyone will have a good time. We are looking forward to seeing many of you in Andijk and Enkhuizen.

You can also sign up without logging in as a member. You do not get a filled in form, meaning you will have to tick three extra boxes and sign the privacy statement, a disclaimer and need to confirm you are not a robot.

This takes extra time, so log on in!

Should you need to alter the information after having sent in your form, you can send an email to [Peter van der Waa](#).

## Hotel rooms in Andijk and Enkhuizen during the Spring Meeting

Want to have a unique overnight experience? In Andijk's harbour there is a Tiny Float, which is a floating hotel room. Book it here: <http://letsfloat.nl/>.

Hotel rooms are always scarce during the Ascension Day weekend. We have reserved 10 rooms with Die Port van Cleve under the Trintella Vriendenkring name. This hotel is near the harbour where we will dock. If you request it, you can book a room with a view of the fleet! Make sure to be quick: [www.deportvancleve.nl](http://www.deportvancleve.nl).

---

***Experiences of an inspector***

The FPZ organised a presentation on the experience of an inspector of classic sailing yachts in Loosdrecht on Saturday 23 February.

Our classics need our attention and maintenance, and everything is submitted to wear and tear. The true state of a ship comes to light when she is closely inspected by an experienced inspector. Olav Cox, inspector and proficient sea sailor, shared his experiences with inspecting “our” classics. He knows the weaknesses and focal areas like no one else and has shared this knowledge. More information on Olav Cox can be found [here](#).

---

### ***Modern ropes and splitting techniques***

The FPZ organised a workshop on modern ropes and splitting techniques in Loosdrecht on Saturday 16 March. Experienced riggers gave an overview of several synthetics and constructions that are used for the production of rigging. They also explained which ropes are best used for several applications, after which the participants could experiment with split pins and different kinds of ropes. More information on the rope specialists can be found here: <https://www.lijnenspecialist.nl>.

## Website Trintella shipyard from 2001

We have found Trintella Shipyard’s website from 2001. It is a great source of information and a great representation of a historical time period. We are currently researching if we can and are allowed to publish the entire website on our own TVK website. We’ll keep you updated.

**In memoriam Mrs. Maria Knap-Heidger**

We received the sad news that our member Mrs. Maria Knapp-Heidger has passed away suddenly in her home in Brasschaat (BE) on 9 February 2019. The Knapp family has a long history in the association and was present at many meetings with their Trintella Illa, *Hoppertosse*. Even after her husband passed away, Maria visited our meetings with her daughter Martina. We will dearly miss Maria's enthusiasm and warmth.
